

Capitol Lighting Plastics

WIRE GUARD

STRIP GUARD

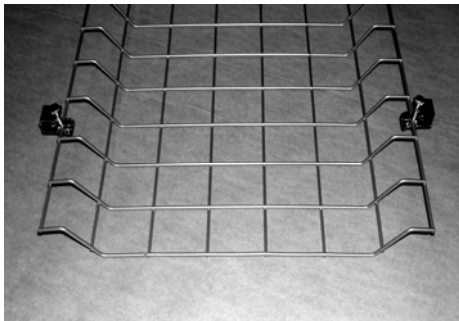

Capitol's Strip Guard is composed of 14 gauge tempered steel wire. The standard length of 47-3/4" permits clearance of end panels.

Hinge clamps are manufactured from 20 gauge tempered cold rolled steel and bright zinc plated. The fluorescent guard will hinge down from either side by slightly prying on clip guides on one side of the fixture and pushing the guard edge wire up and out of the clip.

Mounting Clips Included

Part Number	Length	Width			
5.5-STG-614C	47.75"	4-5"			

INDUSTRIAL GUARD

Capitol's industrial fixture fluorescent guards are composed of heavy duty 11 gauge tempered steel wire.

Mounting clips allow the Industrial Guard to hinge down from either side of the fixture.

Mounting Clips Included

Part Number	Length	Width			
12-RTG-711C	47.75"	12"			
13-RTG-711C	47.75"	13"			
14-RTG-811C	47.75"	14"
